·retro silks·

line of exclusive, hand printed,
semi-transparent silk with a heritage twist

by

"When passing by Emerald Hill, Joo Chiat or Blair Road we tend to fix our eyes to the mobile phone and most of our attention to the next task. We only throw a brief glance at the shiny vivid tile ornaments of the shophouses around - those delicate Edwardian roses, Chinese peonies or peacocks, in various pastel combinations of purple-reds, olive-greens and azul blues…

I decided to switch off the phone in order to pause and look - to admire. Then took a pencil to sketch the tile designs and we became intimate friends, me and the peacocks, the sweet roses and the intricate geometry behind."

milica bravacic-milla, artist in her singapore studio, summer 2014

Following the success of her exhibition and launch of the mural *Blair Rd.*, commissioned by the *Esplanade - Theatres on the Bay* in Singapore, artist Milica Bravacic's signature style, monoprint interpretation of Peranakan tile motifs, moved from canvas paintings and rice papers to silk in 2009.

Her following show *Post Scriptum*, which toured Europe, displayed silk pieces as installation work within metal tubes.

They are now offered independently as custom-made art textiles.

Silk-screened silk pieces are available in 100% Habutai silk for interior decoration and design. They offer an ideal, cosy and delicate touch for hotels and retreats.

The recent tendency to create places that provide complete body-soul reflection deeply resonates with Milica's artistic vision of a calm and profound appreciation of heritage values.

A sight, an emotion,
creates this wave in the mind,
long before it makes words to fit it.
